

THRU-HOLE RADIAL SHIELDED INDUCTORS

AISR-875

FEATURES:

- Ferrite shielded
- Lowest EMI Emission

OPTIONS:

- Bulk Packaging is standard
- Other tolerance available

APPLICATIONS:

- Electronic Appliances
- Band Pass Filters

STANDARD SPECIFICATIONS:

PART NO	Lp (μH) K=±10% L=±15% M=±20%	DCR (Ω) Max	I _{DC} (A) Max	I _{RMS} (A) Max

PHYSICAL CHARACTERISTICS:

TECHNICAL INFORMATION:

- Lp Test frequency: 1KHz 1.0V_{RMS}
- Lp tolerance: K=±10%, L=±15%, M=±20%, letter suffix indicates standard tolerance
- Operating Temperature: -40°C to +85°C
- Marking: Value
- I_{DC}: Lp decreases 10% typical from initial value
- I_{RMS}: ΔT of 40°C increase from initial value
- RoHS Compliance Product, effective Date Code 0527, label on box

ABRACON IS
