NEW

PINFORM 36

IC Lead Alignment Tool

Pre forms IC leads for fast, easy insertion into PCB's or DIL sockets, preventing "pins out" or "pins under" problems.

Avoids need to use clumsy, expensive IC Inserters.

UNIQUE DESIGN

1. UNIVERSAL APPLICATION .3 or .6 pitch accommodated on the same side.
2. EASILY ADJUSTABLE for varying lead thicknesses
3. EARTH TAG for CMOS and MOS device handling
4. HEAVY STEEL base for one-handed operation in compact size of 2½" x 3½"
5. PRECISION construction for accurate performance
