

Right angled termination

748 778 to 749-084

Description

This accessory facilitates the mounting of receptacle connectors at right angles to a panel. Where space is restricted this accessory enables the mating plug to be fitted with a standard backshell.

Features

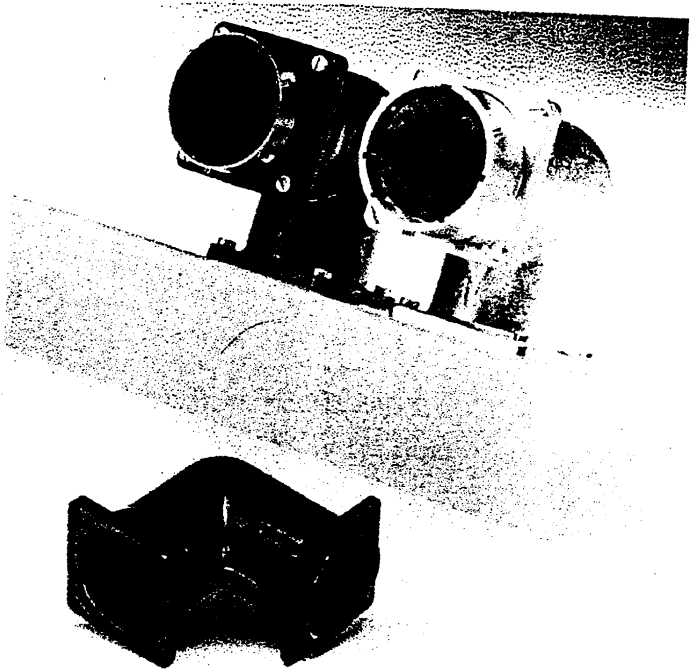

- Available for all shell sizes
- Two finishes, tin plated or anodized black
- Unsealed or sealed options

Performance characteristics

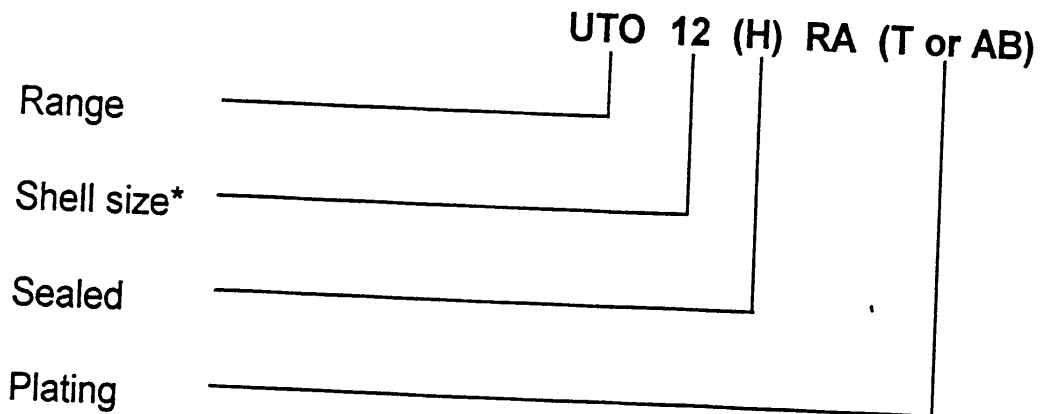

Operating temp: -55° C to +125° C

Materials

- Body : Zamak 5 Din 1743
- Tin plated or anodized black

How to order

* Shell size information available in the Trim-Trio catalogue
