

Mini Grinders and Angle Grinders

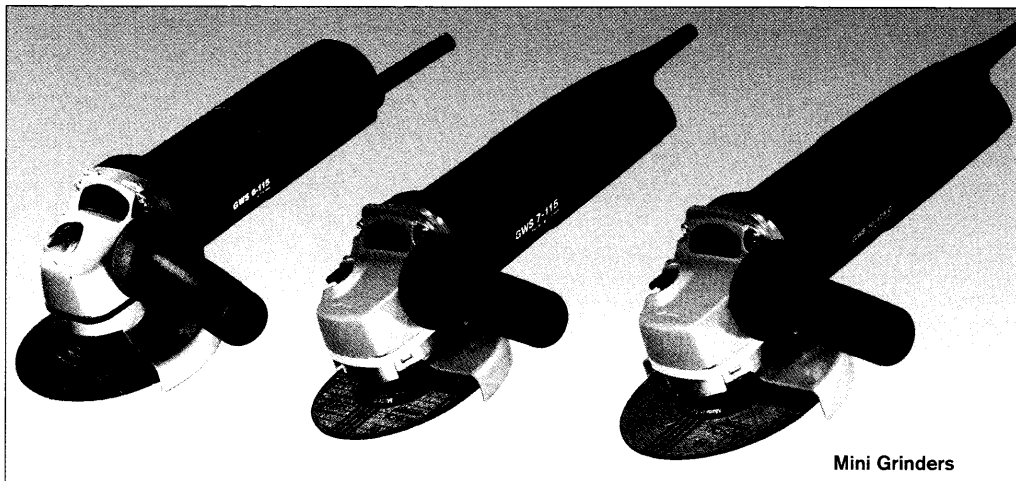

The extensive Bosch range of mini grinders stretches from the super-handly GWS 6-115 with 670 Watts, to the powerful GWS 14-125 C (not illustrated) with 1300 Watts, the right solution for any application. Strong motors guarantee excellent grinding, cutting and roughing performance. Reinforced motor windings ensure effective protection of the motor from sharp grinding dust and therefore guarantees a long service-life.

Winding reinforcement

Comparative model specifications:

Grinding and cutting discs
Rubber backing pad
Cup brushes
Rated no-load speed
Power input
Spindle thread
Weight
Model no.

Mini Grinders

GWS 6-115

115 mm diameter
115 mm diameter
70 mm diameter
11 000 rpm
670 W
M 14
1.4 kg
GWS 6-115

GWS 7-115
