## HC49/4H CRYSTALS

## DESCRIPTION

HC49/4H crystals share the same base dimensions as the industrystandard HC49 crystal but with a low profile can. The crystal utilizes an AT-cut strip crystal with a hermetically sealed metal can. HC49/4H crystals provide a low-cost solution for many applications, particularly where PCB height is restricted.

## FEATURES

- Very low cost crystal
- Available with 3.5 mm (standard) or 2.5 mm height
- AT-cut strip crystal with hermetically sealed metal can
- Comprehensive Euroquartz stockholding
- Ideal crystal for height-limited PCBs
