

Features & Benefits

- Superior long term reliability
- High current pulse discharge capability
- Wide operating temperature (-40°C to 70°C)
- High safety and energy density

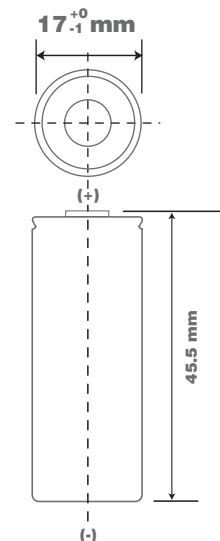

Specifications

Capacity: 2400 mAh Typical

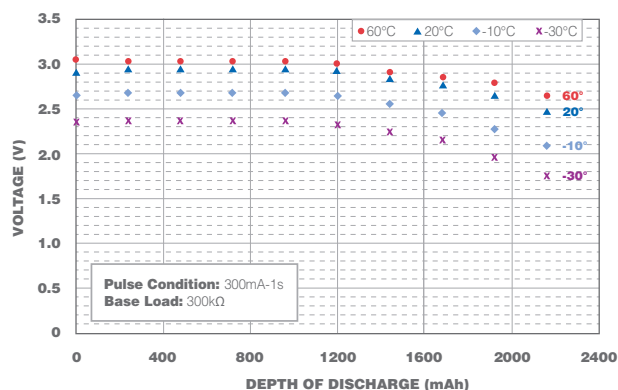

Nominal Voltage: 3V

Weight: Approximately 22g

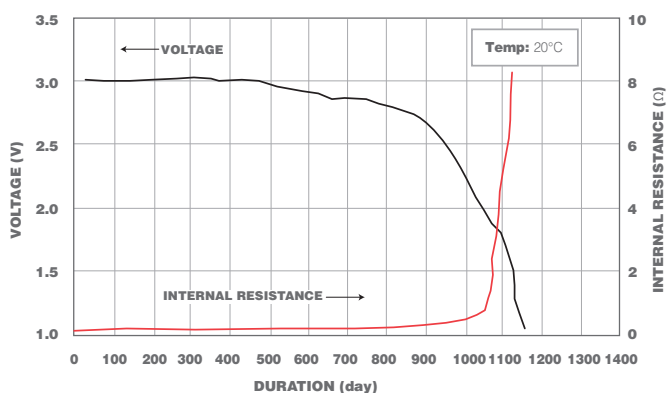

Dimensions

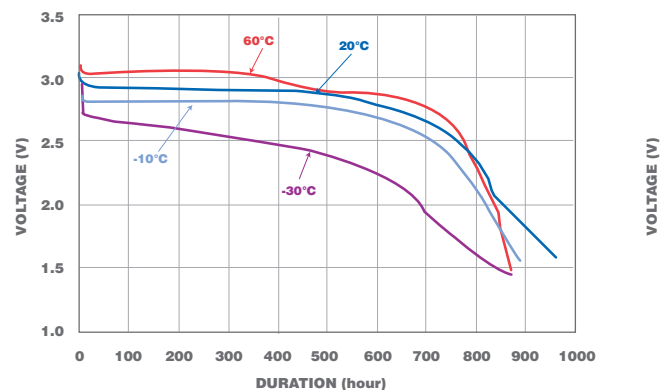

Pulse Discharge Characteristics

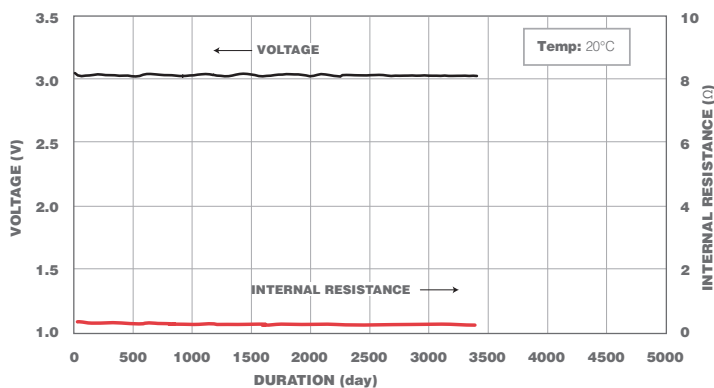

Long Term Discharge 30kΩ (without wake-up pulse)

Discharge Curves (1kohm)

Long Term Discharge 300kΩ (without wake-up pulse)
