

## Automatic Insertion Screw Machine Sockets

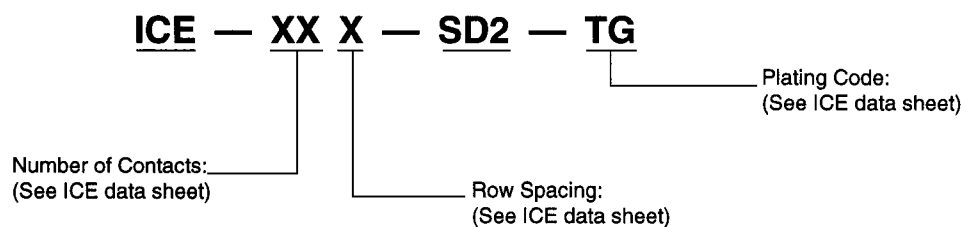

### ICE-SD2 Series

- Standoff on insulator eases sockets through auto insertion machines
- Insulator standoff insures proper solder joints, not allowing socket to seal top of PCB holes
- Flat top body facilitates vacuum pickup
- IC's can safely be loaded in socket before soldering
- Soft terminal for easy clinching

### How To Order ICE-SD2 Series

See ICE Series for plating description, dimensional information and performance characteristics.
