# **Thick Film Chip Resistor Array**

#### **FETAURES**

 Convex terminal array available with either scalloped corners (E version) or square corners (S version)

**FREE** 

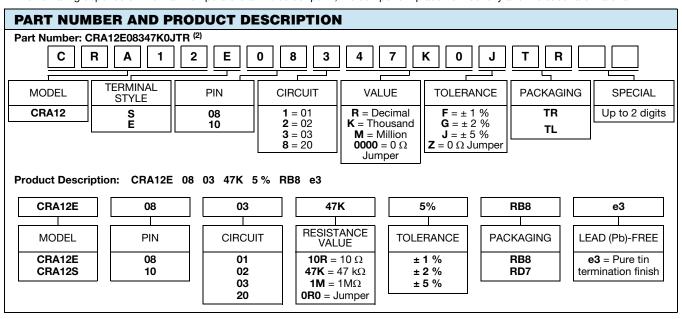

- Wide ohmic range: 10R to 1M0
- 8 or 10 terminal package with isolated resistors
- Pure tin solder contacts on Ni barrier layer, provides compatibility with lead (Pb)-free and lead containing soldering processes
- Material categorization: For definitions of compliance please see <a href="https://www.vishav.com/doc?99912"><u>www.vishav.com/doc?99912</u></a>

STANDARD ELECTRICAL SPECIFICATIONS										
MODEL	CIRCUIT	POWER RATING  P <sub>70 °C</sub> W	LIMITING ELEMENT VOLTAGE MAX. V≅	TEMPERATURE COEFFICIENT ± ppm/K	TOLERANCE ± %	$\begin{array}{c} \text{RESISTANCE} \\ \text{RANGE} \\ \Omega \end{array}$	SERIES			
054405	01; 02; 20	0.100	50	100	1	10 to 1M	E24; E96			
CRA12E CRA12S	03	0.125	50	200	2; 5	10 to 1M 10 to 1M	E24			
0.0.00	03	Zero-Ohm-Resisto	or: $R_{\text{max.}} = 50 \text{ m}\Omega$ , $I_{\text{max.}}$	= 1.5 A						

TECHNICAL SEPCIFICATIONS								
PARAMETER	UNIT	CRA12E AND CRA12S CIRCUIT 01; 02; 20	CRA12E AND CRA12S CIRCUIT 03					
Rated dissipation at P <sub>70</sub> <sup>(1)</sup>	W per element	0.1	0.125					
Limiting element voltage $U_{\rm max.}$ AC/DC	V	50						
Insulation voltage $U_{\text{ins}}$ (1 min) V 100								
Insulation resistance	Ω	> 10 <sup>9</sup>						
Category temperature range	°C	- 55 to + 155						

### Note

(1) Power rating depends on the max. temperature at the solder point, the component placement density and the substrate material.

#### Note

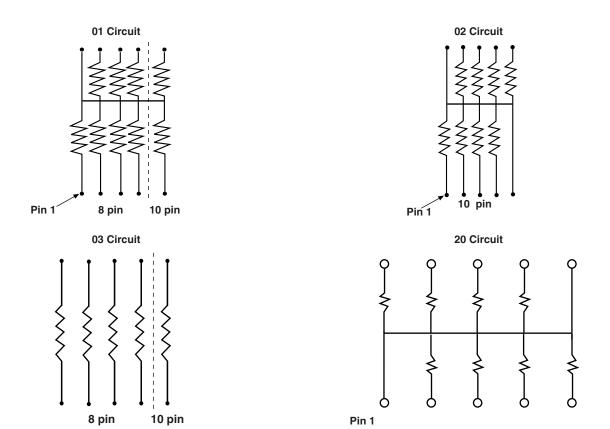

<sup>(2)</sup> Preferred way for ordering products is by use of the PART NUMBER.

AVAILABLE TYPES AND RANGES								
MODEL	TERMINAL COUNT	CIRCUIT	TEMPERATURE COEFFICIENT	TOLERANCE				
CRA12S	10	01 02 03 20	± 100 ppm/K					
CRA12E	08	01 02	± 200 ppm/K	± 1 %; ± 2 %; ± 5 %				
ORAIZE	10	03 20

4.37	-	Periodic electric overload	$U = \sqrt{15 \times P_{70} \times R} \le 2 \times U_{\text{max.}}$ 0.1 s on; 2.5 s off; 1000 cycles	± (1 % R + 0.05 Ω)	
4.27	-	Single pulse high voltage overload, 10 µs/700 µs	$\hat{U} = 10 \times \sqrt{P_{70} \times R} \le 2 \times U_{\text{max.}}$ 10 pulses	± (1 % R	+ 0.05 Ω)

#### Note

(1) Figures are given for a single element.

All tests are carried out in accordance with the following specifications:

- EN 60115-1, generic specification
- EN 140400, sectional specification
- EN 140401-802, detail specification
- IEC 60068-2 environmental test procedures

Packaging of components is done in paper or blister tapes according to IEC 60286-3

Vishay Intertechnology, Inc., its affiliates, agents, and employees, and all persons acting on its or their behalf (collectively, "Vishay"), disclaim any and all liability for any errors, inaccuracies or incompleteness contained in any datasheet or in any other disclosure relating to any product.

Vishay makes no warranty, representation or guarantee regarding the suitability of the products for any particular purpose or the continuing production of any product. To the maximum extent permitted by applicable law, Vishay disclaims (i) any and all liability arising out of the application or use of any product, (ii) any and all liability, including without limitation special, consequential or incidental damages, and (iii) any and all implied warranties, including warranties of fitness for particular purpose, non-infringement and merchantability.

Statements regarding the suitability of products for certain types of applications are based on Vishay's knowledge of typical requirements that are often placed on Vishay products in generic applications. Such statements are not binding statements about the suitability of products for a particular application. It is the customer's responsibility to validate that a particular product with the properties described in the product specification is suitable for use in a particular application. Parameters provided in datasheets and / or specifications may vary in different applications and performance may vary over time. All operating parameters, including typical parameters, must be validated for each customer application by the customer's technical experts. Product specifications do not expand or otherwise modify Vishay's terms and conditions of purchase, including but not limited to the warranty expressed therein.

Except as expressly indicated in writing, Vishay products are not designed for use in medical, life-saving, or life-sustaining applications or for any other application in which the failure of the Vishay product could result in personal injury or death. Customers using or selling Vishay products not expressly indicated for use in such applications do so at their own risk. Please contact authorized Vishay personnel to obtain written terms and conditions regarding products designed for such applications.

No license, express or implied, by estoppel or otherwise, to any intellectual property rights is granted by this document or by any conduct of Vishay. Product names and markings noted herein may be trademarks of their respective owners.
