

Features

- SC Duplex Single Mode Transceiver
- Industry Standard 1x9 Footprint
- Complies with IEEE 802.3z Gigabit Ethernet
- Single +3.3V Power Supply
- Operating temperature Range 0 to 70°C
- LVPECL Differential Inputs and Outputs
- LVPECL Signal Detection Output (C-1xx-1250-TDFB3-SSC2)
- LVTTL Signal Detection Output (C-1xx-1250C-TDFB3-SSC2)
- Wave solderable and Aqueous Washable
- Uncooled laser diode with MQW stucture
- Complies with Telcordia (Bellcore) GR-468-CORE
- 1.25 Gbps application
- CWDM application

Recommended Circuit Schematic

The split-loaded terminations for ECL signals need to be located at the input of devices receiving those ECL signals. The power supply filtering is required for good EMI performance. Use short tracks from the inductor L1/L2 to the module Rx Vcc. A GND plane under the module is required for good EMI and sensitivity performance.

Warnings

Handling Precautions: This device is susceptible to damage as a result of electrostatic discharge (ESD). A static free environment is highly recommended. Follow guidelines according to proper ESD procedures.

Laser Safety: Radiation emitted by laser devices can be dangerous to human eyes. Avoid eye exposure to direct or indirect radiation.
